Unique accountancy franchise opportunity launched by Avanti

Avanti Tax Accountants, part of The Avanti Group (UK) Ltd, based in East Anglia, has launched a unique and exciting new franchise opportunity for accountants.

The Avanti Tax Accountants Franchise Opportunity will offer qualified accountants the chance to run their own business with the support and expertise of a working accountancy practice, with more than 16 years' experience behind them.

In addition to operating as a distinctive, highly-recognised and already established brand, franchisees will benefit from Avanti's proven model of success, along with bespoke accounting systems, marketing support, training, ongoing business support and development.

Open to accountants who are already running their own business, but who may be in need of additional support to flourish or qualified accountants employed, but wanting to run their own business and no idea where to start. Avanti's unique opportunity also includes a license to operate a successful business networking group within their territory, which will not only enable franchisees to connect with likeminded business-people, but also emphasises the local community support that Avanti holds as its core value.

Victoria Sharp, Managing Director at Avanti Group (UK) Ltd, says: *"We are very excited to announce our plans to launch our territory-based franchise opportunity. Our own business has been going from strength to strength and the only thing better than reaping the rewards of this is being able to help others do the same".*

She continued: *"As a former award-winning franchisee myself, I understand the importance of having a proven business model behind you and knowing that you are never on your own when it comes to launching your business - often a daunting proposition for many - even accountants!"*

Franchising itself can be traced back to the Middle Ages, and really took off in the 1950s and 60s when the benefits of this type of business practise were recognised by entrepreneurial individuals and companies across the UK.
