

Life changing

THE TIME FOR YOU DOMESTIC CLEANING FRANCHISE HAS HELPED RALPH WATSON REACH HIS FULL POTENTIAL

Ralph Watson bought into Time For You in the Fife area after he realised his carpet cleaning company involved too much hard work.

He says: "I bought the Fife franchise of Time For You in 2005 and was no stranger to the world of cleaning. My wife Hazel and I had a carpet and upholstery cleaning company that we both worked extremely hard at lifting off the ground. However, shortly after a friend purchased a Time For You franchise and his boasting about shorter working hours and increased profit stirred my curiosity."

GROWING

What Ralph liked about Time For You was that, as the franchisee, you don't do any of the cleaning. "That's all done by independent cleaners, meaning you spend all your working time growing your business.

"I liked the idea of the support network that every Time For You franchise gets. When hundreds of other people have already done what you're trying to do, it means you personally make fewer mistakes and have more room to develop more quickly. So I got a loan, bought my franchise area and haven't looked back since.

"You might be sceptical about taking out a loan to invest in a cleaning business, and so was I. But to my amazement I had paid it off in just under eight months. If someone had told me the day I was sat in that bank requesting money that in 2012 I would make £110,000 profit, I would have laughed in their face."

Ralph adds: "It's a really nice business to be in. I can appreciate the service my 100-plus independent cleaners are providing for my 320 clients. I like to think I am helping people, especially the elderly, by giving them something they can't necessarily do for themselves."

SKILLS

Ralph says his lifestyle has flourished since he invested in his Time For You franchise: "I have all the time I need with my family and plenty of money to treat them with. I have stuck with what I am good at and developed my skills, creating a successful and reliable business.

"I don't have a bad word to say about Time For You. It has helped me work hard and reach my full potential, with the constant support of other franchisees as well as the franchisor, Freddie Rayner.

"My friend introducing me to Time For You changed my life - let me do the same for you. If you're even slightly interested in changing your life and being your own boss, call Time For You to see if your area is available. You won't regret it." **MM**

POSITIVE IMPACT

Caroline Kirby (pictured) is the Time For You franchisee in Tunbridge Wells.

She explains: "Once upon a time, I worked as an investment banker. After having my three children, however, that occupation was no longer suitable, so I decided to do something different and set up a community magazine. It was there I learned about Time For You.

"To make my magazine work I learned as much as I could about marketing and advertising. Time For You franchisor Freddie Rayner submitted an article to my magazine about his franchise and, in my opinion, it ticked all the right boxes.

"It wasn't long before I found myself looking at investing in my own franchise. I visited the Time For You website and I was sold. Who doesn't want to work half the hours of an average person for double, or even triple, the money? I decided I was one of these people and one meeting with Freddie later I was a franchisee."

Caroline says Time For You has had a positive impact on her life: "Having made £77,000 profit this year alone, I am able to send each of my three children to a private school. During the school holidays I can work at home and I have the extra money to treat each of them. This is something every parent dreams of being able to do and I truly believe it's easily achievable.

"My franchise is always growing. I currently have close to 200 clients and work with 100 independent cleaners. Our partnership benefits the both of us and enables me to take care of things, such as the smooth running and accounts of the business, while my clients receive a trustworthy service.

"I would recommend that anyone who wants to spend more time with their children looks into investing in a Time For You franchise. Not only do I have more quality time for my family, but I also have a larger income to make sure they will have the best upbringing I can provide for them."
